THE 12TH INTERNATIONAL SYMPOSIUM ON ENVIRONMENTAL CONCERNS IN RIGHTS-OF-WAY MANAGEMENT

SEPTEMBER 23-26, 2018 DENVER, CO USA WWW.RIGHTS-OF-WAY.ORG

ABOUT THE ROW SYMPOSIA

For over 40 years, the ROW Symposia have addressed the environmental impacts that result from siting, constructing, using and maintaining rights-of-way. By presenting your poster at ROW 12 you will contribute to a body of knowledge that fulfills a unique place in environmental literature.

PLANNING AND REGULATION

- Adapting to climate change
- Fluctuating regulatory standards
- Engaging stakeholders meaningfully

WILDLIFE AND HABITAT

- Mitigating habitat loss
- Enhancing habitat capability
- Minimizing disturbance and mortality

THEME AND TOPICS

Managing rights-of-way in a changing climate

Environmental management of rights-of-way, whether it be planning of new infrastructure or operating of existing corridors, is evolving alongside changing climates, regulatory requirements and stakeholder concerns. Contribute and learn about research, case studies and discussions about adapting to the dynamic world of rights-of-way management.

VEGETATION AND ECOSYSTEMS

- Restoring native species and ecosystems
- Controlling invasive species
- Managing ecosystem composition

TOOLS AND TECHNOLOGY

- Emerging tools and monitoring systems
- Modernizing data and reporting tools
- Innovating mobile tools
