

13TH INTERNATIONAL SYMPOSIUM ON

Environmental Concerns in Rights-of-Way Management

October 10-13, 2021
Charlotte,
North Carolina

Symposium 13

The 13th in the series of symposia on Environmental Concerns in Rights-of-Way Management is coming to Charlotte, North Carolina October 1–13, 2021. The 12th symposium, held in Denver, Colorado attracted over 400 participants that heard over 120 international researchers, environmental specialists, ROW managers, regulators and other stakeholders present the latest information on technology, regulation, wildlife and their habitats, and many other topics related to the construction, maintenance and use of electric and gas utilities, highways, pipelines and railway corridors.

Mark your calendars and plan to attend the symposium. If you have information to share with the industry, please watch for the Call for Papers and submit your proposal.
