

October 9-12, 2022
Charlotte,
North Carolina

13TH INTERNATIONAL SYMPOSIUM ON **Environmental Concerns in Rights-of-Way Management**

WHY SPONSOR OR EXHIBIT AT ROW 13?

It's the only event that
brings together all parties
involved in rights-of-way
management

**SPONSOR
OR EXHIBIT**

ABOUT THE ROW SYMPOSIUM

For over 40 years, the ROW Symposia have addressed the environmental impacts that result from siting, constructing, using and maintaining rights-of-way. Practical information on ways of reducing these impacts is presented and published for future reference.

WHO ATTENDS

Representatives of utilities, government agencies, consulting firms, vendors, and universities concerned with electric, railroad, highway and pipeline right-of-way planning and management will converge in Charlotte to discuss the following topics:

PLANNING

- Compliance with regulations
- Communication with stakeholders
- Strategic planning and evaluation

WILDLIFE

- Habitat protection
- Migration and breeding
- Pollinators and endangered species

VEGETATION

- Species management
- Control of invasives
- Ecosystem protection

TECHNOLOGY

- Monitoring systems
- Data management and reporting
- New mobile tools
